

organized by

International  
OCD  
Foundation

sponsored by

**November 4-6, 2022**

**Join us for the largest national conference dedicated to OCD!**

Featuring three days of learning and community building for the OCD and related disorders community, including:

- Individuals with lived experience
- Family members & supporters
- Mental health professionals & researchers

**Learn more and register at [onlineocdconference.org](https://onlineocdconference.org).**

// The best thing was feeling understood, being around those who were like me, and interacting with presenters who knew exactly what I was talking about when I asked them questions. Nobody minimized or belittled or invalidated my symptoms, nobody told me to "just" do anything, everybody listened with compassion."

— Individual with OCD

I have not felt this hopeful and optimistic about my son's recovery in a long time. I appreciated the real-world tips from clinicians AND those sharing their stories.

— Parent

Highlights will include:

**200+ speakers**

**70 talks (available on demand)**

**36 discussion groups**

**After Hours social events**

**Professional networking**

**CE credits for professionals**
