Kings County

Genomic Psychiatry Cohort

You may be Eligible to Participate in a Research Study Sponsored by the NIMH*

Research has shown that genes can make some people more likely than others to develop Obsessive Compulsive Disorder and Related Disorders. The goal of our study is to identify these genes.

ELIGIBILITY

7 years of age old or older
 Have symptoms or a diagnosis of Obsessive Compulsive Disorder and Related Disorders (Hoarding Disorder, Body Dysmorphic Disorder, Hair Pulling Disorder/Trichotillomania, and Skin Picking Disorder/Excoriation Disorder)

Interested in learning more about picking disorder? Check out our outreach partner, the Picking Me Foundation!

STUDY PROCEDURES

Complete a screening questionnaire on personal and family health history
 Be interviewed by a clinician about your symptoms
 Give a small blood sample (about 3 tablespoons)
 Be compensated for your time and effort
